*Science and the Akashic Field* May 11 2022 Presents the unifying world-concept long sought by scientists, mystics, and sages: an Integral Theory of Everything • Explains how modern science has rediscovered the Akashic Field of perennial philosophy • New edition updates ongoing scientific studies, presents new research inspired by the first edition, and includes new case studies and a section on animal telepathy  
Mystics and sages have long maintained that there exists an interconnecting cosmic field at the roots of reality that conserves and conveys information, a field known as the Akashic record. Recent discoveries in vacuum physics show that this Akashic Field is real and has its equivalent in science's zero-point field that underlies space itself. This field consists of a subtle sea of fluctuating energies from which all things arise: atoms and galaxies, stars and planets, living beings, and even consciousness. This zero-point Akashic Field is the constant and enduring memory of the universe. It holds the record of all that has happened on Earth and in the cosmos and relates it to all that is yet to happen. In *Science and the Akashic Field*, philosopher and scientist Ervin Laszlo conveys the essential element of this information field in language that is accessible and clear. From the world of science he confirms our deepest intuitions of the oneness of creation in the Integral Theory of Everything. We discover that, as philosopher William James stated, "We are like islands in the sea, separate on the surface but connected in the deep."

**Akashic Records: Access Probable Futures, Change the Past, Tap Into the Energies and Archives of the Universe** Jan 15 2020 The Akashic Records Exist And Are Available To Everyone Everything that has ever happened, is happening and can happen is recorded in the Akashic Records. The existence of such energetic records has been known by a few people worldwide and is called by various other names, including the "Book of Life" in the Bible. Have you ever been interested in accessing the Universe's energy to create a goal, accessing the future or past? Are you aware of what the Akashic Records are and how to access them? Do you want to create a new future or past? Science tries to find physical ways to prove or enter other realities and dimensions... However, your mind actually has access to these dimensions and can access realities through meditation, and much more is possible than just that. There is a plane that you can access with your mind, a place where all of the events and desires of human beings in human history have been recorded. This is the Akashic record, and it is a realm of existence that has been actively studied for over 100 years. In fact, the akashic world dates back much further, to the traditions of existential thinking that were actively explored on the Indian subcontinent more than 2000 years ago. In this book, you will learn how you can access this record of human events and desires, equipping you with the ability to access the past and change the future. An important component of theosophy and other schools of spiritual belief, the idea of the Akashic record is based on the indestructible nature of human beings and other members of the animal kingdom. Nothing comes from nothing, as thinkers more than 2000 years ago believed, and your experiences too do not come from nothing, being tied to the complex karmic relationship of all the higher lifeforms on this planet, a web of relationships and experiences inscribed on a permanent record. Science is only now discovering that the universe is more complex than previously believed. Metaphysics and physics have been merging for many years now As we learn that alternate universes may be something that science is close to proving, now is the time to learn about human abilities that some have long taken for granted. Accessing the Akashic record allows you to take full advantage of the human experience and understand how connected you are to others on this planet: a knowledge that will permit you to shape the world around you in dramatic ways. **The Akashic Experience** Mar 17 2020 Firsthand testimonies by 20 leaders in culture and science of their interactions with the Akashic field • Provides important evidence for the authenticity of nonmaterial contact that human beings have with each other and with the cosmos • Demonstrates that the increasing frequency and intensity of these experiences is evidence of a widespread spiritual resurgence • Includes contributions by Alex Grey, Stanislav Grof, Stanley Krippner, Swami Kriyananda, Edgar Mitchell, and others Knowing or feeling that we are all connected to each other and to the cosmos by more than our eyes and ears is not a new notion but one as old as humanity. Traditional indigenous societies were fully aware of nonmaterial connections and incorporated them into their daily life. The modern world, however, continues to dismiss and even deny these intangible links--taking as real only that which is physically manifest or proved "scientifically." Consequently our mainstream culture is spiritually impoverished, and the world we live in has become disenchanting. In *The Akashic Experience*, 20 leading authorities in fields such as psychiatry, physics, philosophy, anthropology, natural healing, near death experience, and spirituality offer firsthand accounts of interactions with a cosmic memory field that can transmit information to people without having to go through the senses. Their experiences with the Akashic field are now validated and supported by evidence from cutting-edge sciences that shows that there is a cosmic memory field that contains all information--past, present, and future. The increasing frequency and intensity of these Akashic

experiences are an integral part of a large-scale spiritual resurgence and evolution of human consciousness that is under way today.

**Inner Engineering** Feb 14 2020 NEW YORK TIMES BESTSELLER • Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. “A loving invitation to live our best lives and a profound reassurance of why and how we can.”—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his

enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means "dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life." The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

*Reincarnation and Its Link to the Akashic Records* Jul 01 2021 Master's Thesis from the year 2012 in the subject Theology - Miscellaneous, grade: A, , course: Master of Metaphysical Science - Reincarnation, language: English, abstract: There are many discussions and opinions on the topic of Reincarnation and its link to the Akashic records. First, this paper will examine myths as well as stated proof of reincarnation, as well as the proof of the existence of the Akashic Records or the abilities of people being able to access the Akashic records. Another goal of the paper is to show individuals as well as some religions including Christianity, that it is possible to find out for themselves that there is such as life after death, and how we as individuals can access information from higher realms. When this information is accessed it allows us to find evidence for ourselves that reincarnation happens to the soul, and that there is life after death. The paper then analyzes the myths and proofs of such existence of life after death and in the next section will discuss the Akashic records and the fact that they do exist and are accessible to each individual on the planet. This section will also bring together Reincarnation and the Akashic Records, revealing how past lives can be healed so that we may finally reach ascension. The last section of this paper will share why we must go beyond religion, which limits our understanding. We must understand that when we find truth we find God, by going within ourselves. We can then see how the human mind with all its limitations keep us from the wide and broad Mind of God. When we truly realize we are both physical and spiritual beings with a body that will eventually die and a soul that will live forever because it is a part of God, we can begin to understand the truths of Reincarnation and its link to the Akashic records. Because of the fact that we are physical and spiritual beings, we have two sets of senses. There are the five senses which connect us to this world; these include taste, touch, smell, hearing and touch. There are other senses which connect us to the spiritual world, including intuition, dreams, visions and our psychic abilities.

**Why We Are Born** Jan 27 2021 There are many inspirational how-to books, but until you understand the fundamental WHY, your how-to is destined to be superficial. This book is unique in that it gets down to this foundation of life in such a clear, straightforward way. The subtitle could be "Life and Spirituality Demystified." From the back cover: Have you ever wondered, "Why was I born?" Humanity has always asked this fundamental question regarding life's purpose and meaning. Our thinking, however, is often limited. If we ponder this question only within the context of one physical lifetime, we cannot reach the answer. In order to know why we are born, we need to know what it was like before birth-and after death, and further yet, even before we assumed individuality. You are not your body. You are the soul currently living in the body. As souls, we are all interconnected and share information about what happened in our past lives, how we felt about the experiences, and what can happen in the future. Such shared information is called the Akashic Records. Why We Are Born, written by renowned Akashic Record Reader Akemi G in her signature straightforward style and with clear words, is a gift of light that dispels many spiritual myths such as "Life is a school." Whether you consider yourself spiritual or not, you will find in this book fresh insights that will help you remember how marvelous life really is despite its challenges.

**Science and the Akashic Field Aug 14 2022** Presents the unifying world-concept long sought by scientists, mystics, and sages: an Integral Theory of Everything • Explains how modern science has rediscovered the Akashic Field of perennial philosophy • New edition updates ongoing scientific studies, presents new research inspired by the first edition, and includes new case studies and a section on animal telepathy Mystics and sages have long maintained that there exists an interconnecting cosmic field at the roots of reality that conserves and conveys information, a field known as the Akashic record. Recent discoveries in vacuum physics show that this Akashic Field is real and has its equivalent in science's zero-point field that underlies space itself. This field consists of a subtle sea of fluctuating energies from which all things arise: atoms and galaxies, stars and planets, living beings, and even consciousness. This zero-point Akashic Field is the constant and enduring memory of the universe. It holds the record of all that has happened on Earth and in the cosmos and relates it to all that is yet to happen. In Science and the Akashic Field, philosopher and scientist Ervin Laszlo conveys the essential element of this information field in language that is accessible and clear. From the world of science he confirms our deepest intuitions of the oneness of creation in the Integral Theory of Everything. We discover that, as philosopher William James stated, "We are like islands in the sea, separate on the surface but connected in the deep."

**The Akashic Experience Dec 26 2020** Firsthand testimonies by 20 leaders in culture and science of their interactions with the Akashic field • Provides important evidence for the authenticity of nonmaterial contact that human beings have with each other and with the cosmos • Demonstrates that the increasing frequency and intensity of these experiences is evidence of a widespread spiritual resurgence • Includes contributions by Alex Grey, Stanislav Grof, Stanley Krippner, Swami Kriyananda, Edgar Mitchell, and others Knowing or feeling that we are all connected to each other and to the cosmos by more than our eyes and ears is not a new notion but one as old as humanity. Traditional indigenous societies were fully aware of nonmaterial connections and incorporated them into their daily life. The modern world, however, continues to dismiss and even deny these intangible links--taking as real only that which is physically manifest or proved "scientifically." Consequently our mainstream culture is spiritually impoverished, and the world we live in has become disenchanting. In The Akashic Experience, 20 leading authorities in fields such as psychiatry, physics, philosophy, anthropology, natural healing, near death experience, and spirituality offer firsthand accounts of interactions with a cosmic memory field that can transmit information to people without having to go through the senses. Their experiences with the Akashic field are now validated and supported by evidence from cutting-edge sciences that shows that there is a cosmic memory field that contains all information--past, present, and future. The increasing frequency and intensity of these Akashic

experiences are an integral part of a large-scale spiritual resurgence and evolution of human consciousness that is under way today.
