

Mary of all her heart. In the hard daily life, Lymene is under the strict control of her father-in-law, the rigorous Catholic patriarch, Father Alberto Notchea, and the whole family, friends, and relatives. When Johan, whom she has known for many years, this time comes on a quick visit, Lymene is forced by Father Alberto Notchea to wear a chastity belt but still, controlled by a strictly global digitized encrypted system, is allowed to go with him on a trip from the Philippines via Thailand, further across the Eurasian continent to Sweden where, for better or worse, she gets to experience a country in political chaos and with a different moral view than the one that exists in her home country. On the way back to the Philippines, Mary and Johan fly together over Catholic Poland further into orthodox re-Christianized Russia, where Eurasianism is in a dramatic confrontation with Globalism. Then, finally, the journey goes via Malaysia back to the Philippines, where everything gets a theatrical and unexpected solution.

**Photographer's Guide to the Sony a7C** Apr 11 2022 Photographer's Guide to the Sony a7C is a full-color, fully illustrated guide book covering all features and operations of the a7C mirrorless, compact, full-frame interchangeable-lens digital camera. With this book, author Alexander S. White provides users of the a7C with a manual covering all aspects of the camera's operation. Using a tutorial-like approach, the book shows beginning and intermediate photographers how to accomplish things with the a7C, and explains when and why to use the camera's many features. The book provides details about the camera's shooting modes as well as its menu options for shooting, playback, setup, video, Wi-Fi, Bluetooth, and special effects. The book covers the a7C's ability to use its touch screen for focusing and enlarging images in some situations, its upgraded autofocus system, which includes real-time tracking autofocus as well as automatic focusing on the eyes of humans or animals, and the camera's wide range of options for assigning its control buttons, dial, and wheel to carry out photographic functions. The book includes more than 400 color photographs that illustrate the camera's controls, display screens, and menus. The images include photographs taken using the a7C's various shooting modes and its Creative Style and Picture Effect menu options, with settings that alter the appearance of images. The book provides concise introductions to topics such as street photography and astrophotography, and explains how to use the camera's Wi-Fi and Bluetooth features to transfer images to a smartphone or tablet, to control the camera from such a device, and to add location information to images. The book includes a full discussion of the video features of the a7C, which can shoot HD and 4K (ultra-HD) movies, with manual control of exposure and focus during recording. The book explains the camera's numerous features for professional-level videography, including Picture Profiles that allow adjustment of settings such as gamma curve, black level, knee, and detail. The book describes steps for recording 4K video to an external video recorder using the "clean" video output from the camera's HDMI port. In three appendices, the book discusses accessories for the a7C, including lenses, cases, power sources, remote controls, microphones and external flash units, and includes a list of websites and other resources for further information. The book includes an appendix with "quick tips" on how to take advantage of the camera's features in the most efficient ways possible. This guide to the a7C includes a detailed index, so the reader can quickly locate information about any particular feature or aspect of the camera.

**Media and Digital Management** Mar 30 2021 Being a successful manager or entrepreneur in the media and digital sector requires creativity, innovation, and performance. It also requires an understanding of the principles and tools of management. Aimed at the college market, this book is a short, foundational volume on media management. It summarizes the major dimensions of a business school curriculum and applies them to the entire media, media-tech, and digital sector. Its chapters cover—in a jargonless, non-technical way—the major functions of management. First, creating a media product: the financing of projects, and the management of technology, HR, production operations, intellectual assets, and government relations. Second, harvesting the product created: market research, marketing, pricing, and distribution. And third, the control loop: media accounting and strategy planning. In the process, this book becomes an indispensable resource for those aiming for a career in the media and digital field, both in startups and established organizations. This book is designed to help those aiming to join the media and digital sector to become creative managers and managerial creatives. It aims to make them more knowledgeable, less blinded by hype, more effective, and more responsible.
