NSA agent Eric Price is sent to Sedona, Arizona to investigate strange activities at a secret underground base. A new type of stealth aircraft is being tested there, he discovers. But there's something odd about the set-up, and Eric must investigate further. With the help of the beautiful Nataly, he begins to penetrate the mystery of the Sedona Conspiracy, and discovers that it has extraterrestrial origins. But more than one alien race is involved, and suddenly Eric and Nataly find themselves caught between two warring species--one of which may be their own! An exciting science fiction thriller in the grand tradition! "Sedona Conspiracy blends a sympathetic understanding of New Age culture with the murderous intrigue of a spy thriller, all within a framework of solid science fiction. Whichever your interests, this is a good read."--M. J. Engh "James Glass: a master writer with an authentic background in space science, a storyteller who gets his details right. Recommended!"--C. J. Cherryh "Jim Glass knows how to tell a story. His latest novel, Sedona Conspiracy, is a thriller that grabs you from the start and keeps you turning the pages. Another first-rate tale, and an e-ticket ride."--Steve Perry Sometimes secrets save lives... Cole Vega never expected to find his mate. He didn't deserve one anyway. But during a ranch call to assist a mare with a difficult delivery, he meets the newest employee at the farm. She also happens to be the sister of one of his packmates, and she's off-limits. Madison Williams moved to Sedona to be closer to her brother. Taking a marketing position at a large cattle ranch in Sedona, she expects she'll have plenty of time to spend with her brother and his fiance, but nothing is as it seems, and everyone in town has secrets including her new employer, Deidra Harlow. When she bumps into the sexy veterinarian, sparks fly, but there's something he's not telling her. One touch makes keeping his distance from her impossible, but one mate for life means putting Madison's needs above his own. He can't tell her he's a werewolf, or that her brother was bitten and now shifts into a jaguar, and if she discovers she's working at a ranch owned by a top secret defense contractor her life will be in danger. Surrendering to his feelings is not an option... Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki I would venture a guess that if someone were to go to a place such as Syracuse, Little Rock, San Antonio, Key West, Pocatello, Des Moines, or Spokane and dig around for two years as I did here, that person would come up with as much material as I have about Sedona. The following incidents and encounters are a broad representation of UFO/ET encounters by area residents and visitors. My opinion is that many of these incidents resulted in the abduction of the individuals involved. I have talked at length with most of these people. It's difficult to put into words the sincerity and concern that was reflected in their voices and faces about what they had experienced. When a mature man or woman breaks down emotionally over a UFO experience they are reliving in an interview, this is to me strong evidence that the person is not lying or simply making up a story. I feel fortunate to have shared in their experiences, and I share in turn these experiences here with you. I am Jeremy Clarkson gets really riled in Round the Bend What's it like to drive a car that's actively trying to kill you? This and many other burning questions trouble Jeremy Clarkson as he sets out to explore the world from the safety of four wheels. Avoiding the legions of power-crazed traffic wombles attempting to block highway and byway, he: • Shows how the world of performance cars may be likened to Battersea Dogs' Home • Reveals why St Moritz may be the most bonkers town in all of the world • Reminds us that Switzerland is so afraid of snow that any flakes falling on the road are immediately arrested • Argues that washing a car is a waste of time Funny, globe-trotting, irreverent and sometimes downright rude, Round the Bend is packed with curious and fascinating but otherwise hopelessly useless stories and facts about everything under the sun (and just occasionally cars). It's Jeremy Clarkson at his brilliant best. Round the Bend is a collection of Jeremy's motoring journalism from his column in the Sunday Times. Praise for Jeremy Clarkson: 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out Number-one bestseller Jeremy Clarkson writes on cars, current affairs and anything else that annoys him in his sharp and funny collections. Born To Be Riled, Clarkson On Cars, Don't Stop Me Now, Driven To Distraction, Motorworld, and I Know You Got Soul are also available as Penguin paperbacks; the Penguin App iClarkson: The Book of Cars can be downloaded on the App Store. Jeremy Clarkson because his writing career on the Rotherham Advertiser. Since then he has written for the Sun and the Sunday Times. At age sixty, he decided to leave all that behind to sail around the world. With the vision of rugged individualism and salty tales to share with his grandchildren, Cosgrove quickly realized that sailing around the world wasn't as easy as he had imagined. From a psychotic crewmate, to sleep deprivation and mental breakdowns, to constant storms and hallucinations, Cosgrove rode the waves, trying to keep his idea of "doing something grand" alive. Alone, and thousands of miles away from everyone he loved, he was forced to ask himself one question: What in God's name am I doing here? In his attempt to avoid the inevitable (growing old, weak, frail), Cosgrove runs amok. He breaks his budget to outfit the boat and then refuses to read the manuals. He enters unfamiliar harbors in the dead of night, hires a violent first mate, and sails headlong into ferocious storms. At the same time, he longs for the simpler days when his four daughters were still children, when his first marriage was still intact, and when his dreams were still within reach. Though driven by scenes of sheer terror, absurd folly, and deep inner searching, the tone is always buoyant and laugh-out-loud funny. Imperfect Passage is the story of one man's perseverance against Father Time and Mother Nature, proving that with enough will, one can indeed conquer the unconquerable. Based upon the works of some of the world's greatest thinkers. Lessons from Sedona: A Spiritual Pathway to Serenity and Contentment by author Lewis Tagliaferre, builds on the success of his first volume, Voices of Sedona. This new, comprehensive collection of essays is designed to teach the fundamental principles of Theofatalismthe belief that God runs everything in the universe from the smallest subatomic particle to the largest interstellar galaxy. The essays link the five principles developed in Voices of Sedona to contemporary issues in society and personal living including politics, science, religion, aging, history, and economics. Useful for both self-study and as lesson guides to be used in organized discussion groups, the essays show the world as it really is from many different perspectives. A comprehensive and formidable source on metaphysics and spirituality, Lessons from Sedona: A Spiritual Pathway to Serenity and Contentment provides a plethora of information for those interested in growing, changing, and transcending the limiting constrictions of consensus beliefs. It communicates humankind's unique place in time and space and their special role in the giant jigsaw puzzle of life. FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up." "An important step towards a new consciousness that will change the planet." -- Paolo Coelho Have you ever ignored a coincidence -- and wished you hadn't? Have you ever denied the truth of a dream -- and wished you didn't? Have you ever disregarded a hunch -- only to regret it? Then you have heard the new language of God. Albert Clayton Gauden, founder and director of the Sedona Intensive, believes that the new language is God's mother tongue, the language in which His messages and guidance are expressed. Experiential and laden with messages, the new language isn't spoken chiefly in words (though sometimes it comes to us that way); it is rich in signs, symbols, wonders, and coincidences. When we open ourselves up to the new language, we can open ourselves to a larger and better life. When we learn to be receptive to the new language, we can begin to understand its unique grammar and rules, and to benefit from its grace. Signs and Wonders is an innovative work that offers practical strategies, anecdotes, case studies, and stories of personal transformation to expand our awareness of the new language. It teaches us how to listen to God and to understand the answers to our prayers, and to know if we are on the right track when plagued by worry, doubt, and uncertainty. Focusing on the process that the author uses in his groundbreaking work as director of the Sedona Intensive, Signs and Wonders can help us all to learn how to clear "God's channel" and to master a new form of communication. "If prayer is about talking to God, the new language is about listening for His answers." Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever. The 1982 statistics on the use of family planning and infertility services presented in this report are preliminary results from Cycle III of the National Survey of Family Growth (NSFG), conducted by the National Center for Health Statistics. Data were collected through personal interviews with a multistage area probability sample of 7969 women aged 15-44. A detailed series of questions was asked to obtain relatively complete estimates of the extent and type of family planning services received. Statistics on family planning services are limited to women who were able to conceive 3 years before the interview date. Overall, 79% of currently married nonsterile women reported using some type of family planning service during the previous 3 years. There were no statistically significant differences between white (79%), black (75%) or Hispanic (77%) wives, or between the 2 income groups. The 1982 survey questions were more comprehensive than those of earlier cycles of the survey. The annual rate of visits for family planning services in 1982 was 1077 visits /1000 women. Teenagers had the highest annual visit rate (1581/1000) of any age group for all sources of family planning services combined. Visit rates declined sharply with age from 1447 at ages 15-24 to 479 at ages 35-44. Similar declines with age also were found in the visit rates for white and black women separately. Nevertheless, the annual visit rate for black women (1334/1000) was significantly higher than that for white women (1033). The highest overall visit rate was for black women 15-19 years of age (1867/1000). Nearly 2/3 of all family planning visits were to private medical sources. Teenagers of all races had higher family planning service visit rates to clinics than to private medical sources, as did black women age 15-24. White women age 20 and older had higher visit rates to private medical services than to clinics. Never married women had higher visit rates to clinics than currently or formerly married women. Data were also collected in 1982 on use of medical services for infertility by women who had difficulty in conceiving or carrying a pregnancy to term. About 1 million ever married women had 1 or more infertility visits in the 12 months before the interview. During the 3 years before interview, about 1.9 million women had infertility visits. For all ever married women, as well as for white and black women separately, infertility services were more likely to be secured from private medical sources than from clinics. The survey design, reliability of the estimates and the terms used are explained in the technical notes. For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years. Learn how to develop an effective Alzheimer's ministry. The Guide to Ministering to Alzheimer's Patients and Their Families examines the importance of spirituality in dealing with the everyday challenges of this mysterious disease. Not a "how-to" manual with step-by-step instructions or tried and true formulas, this unique book instead examines the essential elements of ministering to dementia patients based on the first-hand accounts of family members living through pain and uncertainty.

The book explores the stages of Alzheimer's, grief and guilt, available resources, and implications of spiritual care for patients and families. It is equally useful as a textbook for graduate and undergraduate work, a reference for study groups and seminars, and a primer for those with limited knowledge of the illness. Ministers sometimes neglect Alzheimer's patients and their families because they feel they don't know what to say or do even though they want to be obedient and faithful servants in this specialized ministry. The Guide to Ministering to Alzheimer's Patients and Their Families communicates the thoughts, feelings, and needs of those affected by the disease to help ministers feel more comfortable, confident, and competent as they develop a theological understanding of God, Alzheimer's patients, and their role in ministry. The book also provides models for ministry; role-play scenarios; a sample text for a care facility worship service, a care facility memorial service, and a funeral service for a Christian and a non-Christian as well as a sample clergy seminar program on Alzheimer's ministry. The Guide to Ministering to Alzheimer's Patients and Their Families examines: common characteristics of early, mild, moderate, and severe Alzheimer's general information about Alzheimer's ethical decision-making support group ministry respite care religious rites faith issues heredity hospitalization of Alzheimer's patients long-distance caregiving working with other clergy The Guide to Ministering to Alzheimer's Patients and Their Families also includes a special appendix of selections from the Scriptures. This book is a unique resource for all Christians who desire to minister to those affected by Alzheimer's—especially pastors, priests, chaplains, pastoral counselors, church leaders, healthcare professionals, and seminary students. This is an adventure book. But an adventure without either fright or special effects. An adventure which took 10 years, which a couple and their dog(s) enjoyed immensely. This book is the recounting of the cruise of a lifetime. It tells the adventures, life lessons and beauty of the first half of a voyage of 26,000 miles by water, all within the territorial waters of America - the United States and Canada. The journey was predominately within inland waterways, but covered most of all four North American "coasts" as well. The book is entertaining and instructional. Entertaining by providing fascinating, interesting scenic and historical highlights, and "boater tales" gleaned from 10 years of literally almost circumnavigating North America by traversing the vast majority of its navigable waterways and coasts. Instructional to those interested in travel and boating. And informational, relating how to buy and equip a boat, and to plan and execute cruises, both major and minor. Tidbits of information are inserted where intersecting with the entertaining, providing responses to "situations" encountered, enlightening, significant, and humorous. The "tales" range from amusing to hilarious, but they too provide information and instruction useful to those interested in boating and sightseeing cruising by boat. One goal of this book is to illustrate how relaxing, enjoyable, educational and magnificently scenic and satisfying boat travel is within North America. This book relates a literal voyage thru history - the history of two nations and their first and formative transportation system - coasts, rivers and lakes, and some really old canals. This saga encompasses four boats, thousands of gallons of fuel, hundreds of stops, and the water covered over 10 years at the ideal sightseeing speed of 10 miles per hour. In other words, utilizing the waterways of North America to see what's there, in historic and scenic depth - out of pure Undaunted Curiosity. InfoWorld is targeted to Senior IT professionals.
