This volume presents proceedings from the 38th AIAA/ASME/ASCE/AHS/ASC Structures, Structural Dynamics, and Materials Conference and AIAA/ASME/AHS Adaptive Structures Forum. This is a look at the principles of art history. Working from the thesis that modernity is the culture that invented what art is, the author by means of the pictorial essay offers a cultural critique of the contemporary circumstances that have influenced our notions of what art actually is, how we attempt to value it, how we have come to make a business of it. Like film, photography and other forms of mass culture, the author studies how popular taste influences the aesthetic criteria that determine its worth. Glucagon-like peptide-1 (GLP-1) is a promising new therapeutic tool for the treatment of diabetes. Since the first reports describing its potent insulinotropic activity were published about a decade ago, knowledge of the incretin hormones, and GLP-1 in particular, has increased significantly. This timely volume summarizes what is now known about the molecular biology, physiology and pharmacology of GLP-1. Thorough coverage is given to the physiology of the hormone, including its generation, release and actions at pancreatic and extrapancreatic tissues. The intracellular mechanisms of GLP-1 are also described in detail. Discussion of the molecular biology includes the structure and functions of the genes coding for proglucagon and the GLP-1 receptor. A special feature of the book is the clinical information provided which includes data on the expression and release of GLP-1 and its

potential use as a therapeutic agent for diabetes. Presenting the results of exciting new research, this book will be a valuable reference for endocrinologists, gastroenterologists, pharmacologists, physiologists and biochemists interested in this important hormone.

National architectural magazine now in its fifteenth year, covering period-inspired design 1700–1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

"Lark Rise" is a captivating semi-autobiographical fiction full of informative facts about Victorian life in a hamlet of Oxfordshire, England. It tells the story of ordinary men working on farms and women in their homes with children, washing, and cooking. The well-written factual details delivered by Flora Thompson make this work enjoyable. Described as "Who owns whom, the family tree of every major corporation in America, " the directory is indexed by name (parent and subsidiary), geographic location, Standard Industrial Classification (SIC) Code, and corporate responsibility.

A spiritual awakening after a divine cataclysmic event over 25 years ago, which led to the self-realization of oneself based on Biblical scripture of someone who came to the understanding of one's own destiny concerning the Lord Jesus Christ. *Kris Kristofferson *Leonard Cohen *Bob Dylan *Marijohn Wilkin *Joe Wise *Tom T. A Christian understanding serves as a flashlight in a cave: You can see more. The attributes of Christ - truth, beauty, and goodness - shine forever and keep verses alive. That's why poems live on. Songs continue to occupy my mind. I view most songs as poetry set to music. I greatly admire people who write poems and songs. Some create both lyrics and music like embroidery, and their works greatly affect others. I desired my favorite songwriters and poets to be in one book. I suspect someday Kris Kristofferson, Leonard Cohen, William Butler Yeats, Henry Wadsworth Longfellow, and many others will be best friends. They all toiled in God's vineyard, producing good fruit. I'm hoping this book gets published before they all pass, so they can enjoy this tribute to their "fine wine." Poets and songwriters who speak to those searching for truth take time to admire beauty, and are uplifted by acts of goodness. Poetry and songs were meant to be enjoyed, recited, and sung throughout the day. One can experience encounters with God through such works. These show the best side of mankind.
