The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more. Joey McClane, a precocious twelve year old south Texas boy, has lived with his grandfather ever since he was orphaned as an infant. Paw Paw, an avid classic car and race car enthusiast, has discovered the 1934 Buick coupe that he had fallen in love with as a child it had been his grandfathers car, and he had called her Mattie. And now Joey sets out on a restoration project that will drastically change the direction of his life. He finds himself thrust into the cars history by way of apparitions and dreams. Over the next few years, as he and Paw Paw work on Mattie, Joey embarks on a mental journey through Matties past and soon finds that history creeping in to his present-day existence. His mind is torn between two very different times, and Mattie begins to take control of Joeys life. Meanwhile, he meets his first girlfriend, develops a friendship with a ghost, and receives visions and understanding of his grandfathers lifelong secrets. But when he becomes a fugitive engaged in a high-speed chase with the police, he knows he must make a decision in order to prevent his two worlds from colliding. This novel tells the story of a boys strange experience with his first car, one that will change his life forever.
