This title was first published in 2000. The law relating to directors' duties has fundamental implications across the business environment and yet few areas of business law have received so little detailed examination. This text provides fresh and incisive insights to the rules applying in ten major economic jurisdictions within Europe, with respect to directors' legal obligations and liabilities. Written by the foremost figures in the field, each contribution outlines the statutory provisions that affect the work of company directors in each jurisdiction, including general legislation and specific laws covering the status of incorporated bodies. Fully illustrated with case-law examples the book provides a guide to the range of measures which national courts may provide for participants in corporate life seeking remedies for unsatisfactory governance of companies. It also features guidance on the specific bases for criminal and civil liabilities and examples of the range of penalties to which

directors might be subject. The result is a work of unprecedented detail which will be welcomed by practitioners in the corporate sector, academics and researchers alike. The contributions to The Asian American Educational experience examine the most significant issues and concerns in the education of Asian Americans. Contributors, all leading experts in their fields, provide theoretical discussions, practical insights and recommendations, historical perspectives and an analytical context for the many issues crucial to the education of this diverse population--controversies in higher education over alleged admissions quotas, stereotypes of Asian American students as "whiz kids", Asian Americans as the "model minority", bilingual education, education of refugee and immigrant populations, educational quality and equity. Special emphasis is given to both the historic debates which have shaped the field, and the concerns and challenges facing educators of Asian American students at both the K-12 and university level.
