Over 1,100 businesses list with the SURPLUS RECORD. March 2022 issue. Vol. 99, No. 3 This book is one in the Pen & Sword Transport History imprint in the Locomotive Portfolio series and covers the family of two-cylinder 4-6-0s designed and built by the Chief Mechanical Engineers of the London & South Western and Southern Railways between 1914 and 1936, which survived well into the era of British Railways. The N15 King Arthur class of express passenger engines were the mainstay of the Southern Railways passenger business between the two world wars, but both Robert Urie and Richard Maunsell built mixed traffic and freight locomotives of a similar ilk forming a King Arthur family of locomotives for all purposes that were simple, robust and long lived. This book describes the conception, design and construction of the N15, H15 and S15 classes and the N15X rebuilds of the LB&SCR Baltic Tanks and their operation in traffic before and after the Second World War, until the withdrawal of the last Maunsell 4-6-0 in 1965. The book includes extensive personal recollections of the author, who both saw and travelled on hundreds of trains hauled by many of these engines in the 1950s and 60s, and gives a brief summary of those that have been preserved on Britains heritage railways. The book is copiously illustrated with over 200 black and white and colour

Fritz's love affair with Corvettes began in 1963, when the local owner of a 1963 Saddle Tan fuel-injected coupe would park his Corvette next to the bank in Schuylkill Haven, Pennsylvania, on Friday nights for all. A few years later, though, he bought a 1966 Sunfire Yellow, 427 cubic inch, 425 horsepower Corvette Coupe, which he's owned for forty-seven years. For much of that time, however, the car was in storage, as he enlisted in the Navy in October 1969 and spent a lot of time overseas. It came out of storage in November 1998, and a full-body, off-the-frame restoration began at The Vette Shop in Warminster, Pennsylvania. The restoration followed the process of the National Corvette Restorers Society, and the Corvette went on to win the society's Top Flight Award, The Zora Arkus-Duntov Mark of Excellence Award. Relive your youth, renew your commitment to living in the moment, and celebrate the special bond between a man and his beloved car with *The Life of a 1966 Corvette*. A 502 crate motor, or just need additional information for your high performance engine buildup, you'll find this to be an invaluable guide to help complete your project. Book jacket. This revised and updated color edition of *How to Rebuild the Small-Block Ford* walks you step by step through a rebuild, including: planning your rebuild, disassembly and inspection, choosing the right parts, machine work, assembling your engine, and first firing and break-in.
